

Fast-track your cleantech business!

Do you have a cleantech startup and want to take it to the next level?

Apply now!

Are you the next great **climate entrepreneur**?

Apply at www.climate-kic.org/ris/accelerator and become part of an extensive European network of like-minded people.

Application deadline is **27 January 2019**.

Then join the **EIT Climate-KIC Accelerator Programme** and become part of a community that accelerates real solutions for **climate change mitigation and adaptation**.

Climate-KIC

Climate-KIC is supported by the EIT, a body of the European Union

EIT Climate-KIC Accelerator is Europe's largest cleantech accelerator for early stage startups. We are looking for innovators with breakthrough ideas and business models to counter climate change.

- » **Between April and September 2019 you will:**
- » Get access to great education and training, intensive coaching and financial support between 10,000 and 50,000 EUR- no equity taken.
- » Benefit from EIT Climate-KIC's extensive international partner network to help you find early adopters and pilot partners
- » Intensively collaborate with and learn from role-models and peers all across Europe

Find out more at www.climate-kic.org/ris/accelerator

The programme runs in 12 countries, locally implemented, but with a joint curriculum and international programme components.

The journey to an investible and scalable startup takes you through 3 stages, each with a special focus.

Stage 1: Business Model Development

Stage 2: Business Model Validation & First Customers

Stage 3: Onwards to Investment and Scaling

If you are an early-stage startup (up to 5 years since incorporation and minimum 2 founders) or a team wanting to create a startup based around a new technology/service with high potential for commercial viability and climate impact, then this is the right place for you!

About EIT Climate-KIC

EIT Climate-KIC is the EU's largest public private partnership addressing climate change through innovation to build a zero carbon economy. We address climate change across four priority themes: urban areas, land use, production systems, climate metrics and finance. Education is at the heart of these themes to inspire and empower the next generation of climate leaders. We run programmes for students, start-ups and innovators across Europe via centres in major cities, convening a community of the best people and organisations.
